MISCELLANEOUS.

Prince Arthur has sent to Miss Sherman a medallion with protraits of himself and his mother, as an acknowledgement of hospitalities received.

Two Pennsylvanians have obtained a patient for manufacturing writing and printing paper from the leaves of cornstalks, and have already manufactured samples of excellent quality,

The surgess of the recent experience with the double shotted projectile at Fortress Monroe was but partial. Colonel Baylor, ordnance officer does not indorse the opinion of the inventor.

A bill for the removal of the Capital of the state of Florida from Tallahasse to Jacksonville, passed the Senate of that State last Friday almost without opposition and has gone to the Assembly.

The Pacific Tannery in Stockton employs 30 men all the year round, and manufactured 200,000 sides of leather last year, consuming more than 800 cords of tan bark. Its leather is sent to New York and Boston.

The House Committee have agreed to report a bill to transport imported goods in bond to Cincinnati, St. Louis, Buffalo, Evansville, Louisville, Milwaukee and Chicago, thus making those places ports of entry.

The late report of the heavy percentage of bogus coins in the five-cent nickels presented at the sub-treasury for redemption, was an exaggeration. Instead of twenty per cent of bogus coins, there is but one-quarter of one per cent.

Disease is aiding the extinction of the North American Indian. A small tribe in Montana Territory, the Gros Ventres have recently lost 800 of their number from small-pox, from which disease they also suffered greatly last year. The tribe now numbers but 1,200, and the smallpox is still carrying off large numbers.

EMPLOYMENT WANTED.

To the Editor of the Times:

The Chicago relief and aid society desires to call the attention of farmers, fruit-growers, and others in the country who employ laborers, that there are at the present time, large numbers of labor-ing men, with families, in the city without employment, who would be glad to go to the country the coming spring if assured they could find places for their families to live, and employment for themselves and such of their children as are old enough to work. They are not paupers whom we wish to send out of the city to relieve ourselves of their support; but honest, industrious men whese mis-fortune it is to be located where they can only find employment during a portion of the year. If living in tenement houses upon farms, they would prove valuable and permachildren have always been accustomed to work. They are of all nationalities; are poor, and the means to pay their fare from the city would have to be advanced from those employing them, to be repaid chause which shall allow persons to take a chause which shall allow persons to take the chause which compels persons to take the chause which can be chaused by t from those employing them, to be repaid by their labor. Transportation could probably be secured at reduced rates of any of the roads leading out of the city. Persons who can give employment to

men of this class are requested to communicate with the society. Papers having a large circulation in the country are requested to publish this cause. Com-munications may be addressed to O. C. Gibbs, Secretary Chicago Relief and Aid society, No. 213 Washington street, Chi-
